

LRT3 Eases Mobility For UiTM Shah Alam Students, Supports Access To Campus And Klang Valley Connectivity - Zambry

By BERNAMA 30 JUNE 2026 03:57 PM

SHAH ALAM-The operation of the Light Rail Transit 3 (LRT3) Shah Alam Line has delivered significant benefits to students of Universiti Teknologi MARA (UiTM) Shah Alam by improving daily mobility and helping reduce traffic congestion around the campus area. Higher Education Minister Datuk Seri Dr Zambry Abd Kadir said the availability of the UiTM Shah Alam Station is expected to ease travel for students while lowering transportation costs for movement across the Klang Valley.

"I saw how excited many students were, and this certainly provides relief to those who face traffic congestion when travelling to campus every day, especially as this area continues to develop rapidly," he said. He was speaking after launching the Semiconductor@UiTM initiative at the Tuanku Abdul Halim Mu'adzam Shah Engineering Complex, UiTM Shah Alam. Also present was UiTM vice-chancellor Professor Datuk Dr Shahrin Sahib@Sahubuddin. Prime Minister Datuk Seri Anwar Ibrahim, when launching the LRT3 Shah Alam Line last Sunday, announced free fares for all passengers using the service from June 29 until July 31. The Shah Alam Line comprises 20 stations: Bandar Utama, Kayu Ara, BUII (Bandar Utama 11), Damansara Idaman, Subang, Glenmarie 2, Kerjaya, Stadium Shah Alam, Dato' Menteri, UiTM Shah Alam, Section 7 Shah Alam, Bandar Baru Klang, Pasar Klang, Jalan Meru, Jambatan Kota, Taman Selatan, Seri Andalas, Klang Jaya, Bandar Bukit Tinggi and Johan Setia. Meanwhile, Zambry said UiTM is also stepping up efforts to strengthen Malaysia's position as a global semiconductor hub through the launch of the strategic Semiconductor@UiTM initiative. He described the initiative as evidence of the university's commitment to translating government allocations into the development of a highly skilled talent ecosystem aligned with international industry standards.
